

## **Adobe® Photoshop® CS2: Level 1**

Course length: 1.0 day(s)

### **Course Description**

You are starting to familiarize yourself with image editing using Photoshop. You would like to learn about the tools and features available to you in Photoshop CS2. In this course, you'll work with some of the tools and features to edit images using Photoshop CS2.

**Course Objective:** You will use Photoshop CS2 tools for painting, retouching, and enhancing images. In addition, you will work with layers and layer selections.

**Target Student:** The design professional who wants to create and design graphics using Photoshop CS2 for final print and web output. Target customers are advertising agencies, marketing agencies, production houses, or departments that work in such disciplines within the larger organization.

**Prerequisites:** Basic PC skills are necessary to complete this course. These skills include: a basic understanding of a computer's operating system, launching an application, creating and saving files, and copying files from CDs and other media.

**Delivery Method:** Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

### **Performance-Based Objectives**

Upon successful completion of this course, students will be able to:

- explore Photoshop CS2.
- paint and retouch images.
- enhance an image.
- work with layers and selections.
